

## **PROFILE**

**HMS** (Al Hirey Medical Services) provides high caliber home medical care services that guarantee stability and peace to our clients and their families where they can depend on our multi-disciplinary qualified medical care team.

Our primary goal is to provide medical services to individuals at their homes within their family environment. This guarantees the continuation of medical instruction conveyed by the client's primary physicians without being limited to a single location (hospital) under the supervision of qualified staff. Our other goal is to elevate our clients' health condition through personalized medical care within the comforts of their home.

### **Our Approach**

**Personalized Service:** We provide free in home assessment, interviews which give us a clear picture of our clients lifestyle and personality. We match caregivers to the specific needs of client and we personally introduce the caregiver.

**Commitment to Care:** We are committed to the needs of our client and family members and strive to develop trusting relationships with everyone we meet.

**Caregiver Selection:** We carefully match our caregivers to the specific needs and personality of a client, and personally introduce the caregiver to the client and family member – a unique difference. We have caregivers who speak a variety of languages and come from a variety of cultural backgrounds, we meet your need.

**Communication:** We are available 24 hours a day, 7 days a week. We communicate with the client's team of health professionals and family as needed.

**Peace of Mind:** Our caregivers are carefully screened, selected, bonded and insured. We provide extensive reference, criminal background check, vulnerable sector and Driver Motor Vehicle checks on each caregiver.

**Community Involvement:** We are highly involved in the community and act as a valuable resource for families, social workers and health professionals.

### **Our Services:**

#### **Care giving services:**

Our mission is to provide access to a highly qualified (male /female) nursing staff that would provide round the clock services starting with client assessment and follow-ups.

Our clients include but not limited to bellow categories:

- Seniors
- Chronic illness clients

- Post operation patients
- Special needs clients

Examples of specialized nursing services but not limited to:

- Give injections as prescribed by the doctor
- Wound care through changing dressings, removing stitches and/or caring for burnt tissue
- Post operational Medical Care giving
- Providing Urinary Catheter intubation and Care
- Providing medical care giving and support to neurodegenerative (such as Alzheimer, Stroke, Parkinson's) clients
- Supporting client's family through raising awareness and providing health education with regards to their loved one's condition

### **Physiotherapy At Home**

AHMS provides physiotherapy by qualified and licensed (male/female) physiotherapists to assist with the rehabilitation of our clients within their homes.

### **Other Services:**

We also provide additional services such as :

- **Maternity** (Post/Prenatal care services)
- **Health and nutritional education and awareness**
- **Overseas medical escort services.**

Engagement Model:

- **Hourly Care**  
Our caregivers are available for a minimum of three hours a visit, whenever you choose. We are available 24 hours a day, 7 days a week to provide services. The schedule is the same each week with certain exceptions.
- **Overnight Care**  
We can provide either awake and alert or sleep-in care giving services. This may allow the primary caregiver a restful sleep and peace of mind for the family. Caregiver may be woken during the night if assistance is needed.
- **24 Hour Care**  
The caregiver is awake and alert at all times for assistance. This requires two caregivers per 24 hour period.
- **Respite Care**  
When the primary caregiver needs assistance or a break, we can help. We can schedule consistent weekly visits or provide care during vacations.

**Home Health Care for a Healthy Community**
